AMO & Colleges Ontario Partnership

DR. ANN MARIE VAUGHAN
President and CEO,
Humber Ontario

Ontario public colleges are leading in business led research and innovation

Each year, there are over 3,300 research projects at colleges. In 2021 - 22:

- More than 2,000 prototypes were developed
- Almost 1,000 new products were created
- Over 500 services were introduced

Lambton College's Bio-industrial Process Research Centre

Key differences with college research

- College research is driven by industry needs.
- The IP is retained by the industry partner.
- College research is fast.

beaverrock.com

As a Canadian craft roaster, we take pride in everything we do. Selecting only premium beans from the world's best coffee regions, we expertly roast in small batches to capture the precise nuance of each bean. After hundreds of trials we have created roasting profiles that are sustainable, consistent and above all unique.
